Sir,

(17) dis'd. 11-9-98.

In my (No. 4979/318) of 16th May 1898 submitting Mr: Hubbaspa's application for leave, I recommended that Mr: G. Pitaramaiya, Assistant Conservator on special duty should act for him.

But Mr: Veera Pingle, District Forest Officer, Kadur, who has not been in good health for some time, having since applied for two months privilege leave (application with Comptrol's certificate submitted separately) it appears preferable that Mr: Pitaramaiya should act for him in Kadur where he is already employed on special duty whilst for Bangalore I would spare the services of Mr: Appaya as there is no other officer available.

Mr. Stebbing's prize for the best Entomological collection—

R. D. Hudson.

The Campbell-Walker prize for Forestry to the best student from Madras—

C. Seenyya.

Mr. Hill's prize for the best athlete amongst the passed students—

A. R. Brown.

The Brandis prize—

Babu Birbal, Curator of the Imperial Forest School, was awarded Rs. 40 for an article on the "Manufacture of Turpentine and Colophony."

Mr. Ram Chandra Krishna, Extra-Assistant Conservator of Forests, Centra Provinces, was awarded Rs. 30 for an article entitled, "Drought and Forests in th Central Provinces."

Mr. E. A. T. Radcliffe, Forest Officer, Kashmir, was awarded Rs. 20 for a article on the "Bamboo forests of the Jammu and Kashmir State."

RESOLUTION II.

A minute by the Director was laid before the Board in which he observed-

"At the meeting of the Board of Control in 1898 the maximum number of students to be admit was fixed at—

40 Upper Class,
10 Lower Class;

but leave was given to temporarily raise these numbers to—

45 Upper Class,

12 Lower Class.

I think the former numbers are as high as are compatible with efficient teaching. If the School is to be enlarged, we must, I think, have double classes, which would entail additions to the quarters and lecture-halls.

Of the students of all classes at present at the School—

62 are from the Bengal Presidency,

2 are from Native States in Northern India,

14 are from Madras,

1 is from Bombay,

18 are from Native States in Southern India."

The Board had also under consideration the inability of the School to provide for all the students who claim to be admitted or are deputed from Native States. The Board's Resolution with regard to these matters, having formed the subject of a separate communication to the Government of India, is still under consideration.

RESOLUTION III.

The Board of Control considered the revision of the course of Forest Zoology. Acting on the advice of Major Alcock, I. M. S., Superintendent of the Indian Museum, the Board (the Deputy Director dissenting) recommended the withdrawal of Mr. E. C. Cotes' "Manual of Forest Zoology" as being an unsuitable text-book, and that the students should for the present dispense with a Manual, the Instructor making use of standard works, such as "Agricultural Zoology" by Dr. J. Rilzema Bos, with suitable modifications and the use of local illustrations. The Board further resolved that Mr. Stebbing should elaborate a set of lectures, on the basis of the revised syllabus drawn up on Major Alcock's advice and given below, which in the course of a few years may be worked up into an improved text-book of Indian Forest Zoology —

Revised Syllabus of Forest Zoology :—

(1) Elementary biology, with illustrations and explanations of technical terms.

(2) Systematic review of the animal kingdom, with detailed descriptions of only those groups which are of practical importance in forestry.

(3) Demonstrations and object-lessons in the anatomy and life-history of insects chiefly.

(4) Collection and preservation of specimens.

RESOLUTION IV.

A note on the "Collection and Preservation of Entomological Specimens and the study of Life-Histories of Insects," by Mr. E. P. Stebbing, was laid before the Board, which considered that it should be handed over to the Inspector-General of Forests for publication in the Appendix Series of the "Indian Forester." The Board approved of a tour-programme proposed for the Forest Entomologist during the hot weather and rains of 1901.

RESOLUTION V.

It was resolved that the attention of the Inspector-General of Forests should be invited to Resolution IX passed by the Board of Control in 1893, in which he was requested to consider whether arrangements could not be made for a course of riding lessons for *all* students at the School, no action having been taken in the matter as far as the Board of Control is aware.

J 44

RESOLUTION VI.

The Board of Control accepted the following amendments to the Rules for admission to the Imperial Forest School, as proposed by the Director, and recommends their adoption :—

1. Rule 12 (ix).—Omit last clause of this rule.

2. Rule 28 (1).—Substitute " Instructor " for " teacher."

3. After rule 28 (2) enter a new rule (3) as follows :—" Fine by the Director to an amount not exceeding Rs. 5 for each offence."

This rule is intended to apply to small breaches of discipline, of which very serious notice cannot be taken and for which a reprimand is often disregarded.

4. To present rule 28 (4) add " or in the case of a student in receipt of a stipend under Rule 12 (ix) to reduce or altogether withdraw the stipend."

5. For present rule 28 (5) substitute the following :—

" The Director, acting with the consent of all the officers of the School, has power to dismiss any student for misconduct; and a student thus dismissed cannot be readmitted to the School."

This verbal alteration is required because it is only possible during four months in the year to assemble a full meeting of the School Officers as required by the rule as it stands at present.

6. Consequent on the above, Rules 28 (3), (4) and (5) should be renumbered (4), (5) and (6), respectively.

RESOLUTION.

Mr. J. W. Oliver held the post of Director of the Imperial Forest School throughout the year, and the only important changes in the regular staff took place at the beginning of the new courses in April, when Mr. R. McIntosh, M.A., succeeded Mr. A. M. F. Caccia as Senior Instructor, and Mr. B. O. Coventry, F.C.H., became Instructor in place of the former officer. With the sanction of the Secretary of State, Mr. E. P. Stebbing was appointed Forest Entomologist for a period of two years, and was attached to the School staff.

2. Fewer candidates presented themselves at the entrance examination the previous year, and the percentage of those passing the test was Of the 50 candidates who qualified, 26 were admitted to the School, ...er with 5 who had passed in previous years, 3 students with University ...ees exempting them from the entrance test, and 4 students deputed by the Government of Siam, making 38 admissions in all to the Upper Class, of which 14, or 37 per cent., were private students. The standard of general education possessed by the candidates admitted to the Upper Class was satisfactory, as is shown by the details given on the margin.* The number of students admitted to the Lower Class was 8. The total number of students attending the School on the 30th June 1901 was 97, as compared with 99 at the close of the previous year.

* 7 bachelors of Arts.
7 passed First Arts Examination.
16 matriculates.
6 holders of School final certificates.
2 qualifications not stated.

3. At the final examinations held in March 1901, 4 out of 37 Upper Class students failed to pass, the rest obtaining the Higher Standard certificate, including one with Honours. There were no failures amongst the Lower Class students, who thus all obtained the Lower Standard certificate. These results show a considerable improvement when compared with those of the preceding year, and they reflect credit upon the School officers.

ORDER—Ordered that the above Resolution be published in the *Supplement to the Gazette of India*, and that copies be forwarded, for information, to the Governments of Madras and Bombay, the Local Governments and Administrations noted in the margin, and the Comptroller and Auditor General; also to the Inspector General of Forests for information and for communication to the Director of the Forest School and the Superintendent of Forest Surveys.

(i) Report of the Forest School for the year 1901-2.

(ii) Letter from the Inspector General of Forests, No. 1280, dated the 24th December 1902, submitting the above report.

RESOLUTION.

Mr. J. W. Oliver held the post of Director of the Imperial Forest School during the year. Mr. F. Gleadow, who had creditably filled the post of Deputy Director for nearly six years, was replaced in February 1902 by Mr. H. Jackson, Deputy Conservator, on the Burma List. The rest of the staff remained unchanged throughout the year.

2. The number of candidates presenting themselves at the Entrance Examination for Upper Class students held in October 1901 was slightly less than in 1900-1, but the number who passed the test was practically the same. Out of the 51 who qualified, 29 joined the School, together with 4 who had passed in the previous year, and 2 Rangers already in the Department who were exempted from the Entrance Examination, the total of admissions being thus 35. The number of students admitted to the Lower Class was 10, exclusive of 2 men deputed by the Jhang District Board in the Punjab to study road arboriculture. In all there were 89 students at the School at the close of the year, compared with 97 on the same date in 1900-1.

3. The results of the final examinations held in March 1902 were good, and proved that the Upper Class students possessed an adequate knowledge of English, which has not always been the case. It is observed with satisfaction that only three of the 43 students in this Class failed to satisfy the Examining Board, while two passed with Honours.

The lectures given to the Lower Class students are in the vernacular, and as the number in this Class is limited, there is opportunity for much individual attention at the hands of the Instructors. There have been no failures in this Class during the past two years, all the students having succeeded in qualifying for certificates.

4. The results show that the standard of education was well maintained during the year.

Ordered that the above Resolution be published in the *Supplement to the Gazette of India*, and that copies be forwarded, for information, to the Governments of Madras and Bombay, the Local Governments and Administrations noted in the margin, and the Comptroller and Auditor General; also to the Inspector General of Forests for information and for communication to the Director of the Forest School and the Superintendent of Forest Surveys.

Chapter III.—THE SCHOOL COURSES.

I.—RAINS TERM, 1901.

12. In the Upper Classes the lectures on Sylviculture, Forest Utilization, Working Plans and Law were delivered by Mr. F. Gleadow, Deputy Director. Mr. McIntosh lectured on Botany and Mathematics. Mr. Coventry on Forest Engineering and Surveying, Dr. Leather and Mr. McIntosh on Physical Science, Mr. Stebbing on Zoology and Babu Kashishwar Mukerji on Procedure and Accounts.

13. In the Lower Classes the Vernacular Instructor lectured on Forestry, Surveying, Engineering and Zoology, the Assistant Vernacular Instructor on Botany, Natural Science and Zoology, Pandit Raghu Nath Pathak on Law, Babu Karuna Kumar Dass on Mathematics and Babu Pooran Singh Kandari on Procedure and Accounts.

II.—WINTER TERM, 1901—1902.

14. The Upper Class of 1900 and the Lower Classes of 1900 and 1901 in charge of the Deputy Director, assisted by the Vernacular Instructor, were in camp at Lachiwala and Thano until the Christmas holidays, the Upper Classes being given lectures on Forestry in the early mornings and practical work during the remainder of the day, while the Junior Lower Class received practical instruction in surveying. The Senior Classes re-assembled at Lahore on the 6th January and after studying the Jugian, Shahdera and Changa Manga plantations and the various export works connected with them, left on the 17th for Mailani in Oudh where they visited the Marha and Kishanpur Working Circles. On the 28th January they left for Badshahibagh where the practical examinations in Surveying and Levelling was carried out under the supervision of Mr. McIntosh assisted by the Vernacular Instructor.

15. The Upper Class of 1901 under Messrs. McIntosh and Coventry was employed until the 21st December on practical survey work at Barkot. Lectures on Sylviculture were also given in the mornings, illustrated by occasional excursions in the forest. On the 4th January both the Upper and Lower Class under Mr. Coventry and the Vernacular Instructor left for Ambari whence the Kalsi coppice forest and the Dakhpathar boom and depôt were visited. The classes then followed the usual tour along the Southern slopes of the Siwaliks to Ranipur where practical coppice fellings and bamboo cleanings were undertaken. From Ranipur they marched under charge of Mr. Coventry *vid* Motichur, Gola tappar, Lachiwala and Bullawala to Karwapani, marking trees for removal in sâl improvement fellings at Phandowala and carrying out cleaning operations at Bullawala. Karwapani was reached on the 26th February and the classes remained there until the 26th March when they returned to Dehra. While at Karwapani they were employed on practical road alignment and bridge construction, with lectures on Sylviculture and Mathematics. Mr. Milward relieved Mr. Coventry of the charge of the classes on the 16th March.

III.—SPRING TERM, 1902.

16. The Classes of 1901-1903 assembled for the hill tour at Karwa on the 6th April and under the guidance of Mr. Jackson, Deputy Director, and Mr. Coventry made the same tour and followed the same course of study as in the previous year. They were dismissed at Deoban on the 30th June for the summer holidays.

17. The classes of 1902—1904 under Mr. McIntosh and the Vernacular Instructor left Dehra on the 14th April and were in camp at Deoban, Mundali, Kathian, Konain and Asmari until the 15th June. The different systems of forest management were shown and explained to the students and lectures were given on Elementary Sylviculture.

18. The following table shows the number of hours devoted to the various subjects during the year ending 30th June 1902, exclusive of time occupied in examinations :—

CHAPTER V.—GENERAL REMARKS AND FINANCIAL RESULTS.

26. The School buildings and Museum were inspected by His Excellency the Viceroy on the 30th April after the students had left for the annual Hill tour.

27. A revised syllabus of Forestry has been approved of by the Board of Control as well as some alterations in the time-table of lectures, the Forestry course being extended and the surveying course somewhat curtailed. These alterations were subsequently sanctioned by the Government of India.

28. The Forest Flora of the School Circle, by Upendranath Kanjilal, F.L.S., was completed and published during the year, and the personal distinction of Rai Sahib was conferred on the author by His Excellency the Viceroy.

29. The native students were drilled twice a week during the rains terms by Havildars of the 2nd (P.W.O.) Goorkha Regiment lent through the courtesy of the Officer Commanding. The European and Eurasian students were enlisted in the Dehra Dún Mounted Rifles and drilled with the corps, attending also the camp of exercise from the 15th to the 25th October.

30. There was one death from double pneumonia and two students had to be invalided—one after a bad attack of enteric fever, which was not contracted at the school, and the other owing to enlarged lever and spleen, the result of malarial fever from which he suffered before joining. There were no other severe cases of illness among the students, but there was more than the usual amount of seasonal fever and influenza.

31. Some additions were made to the School Library, Herbarium and Museum, and a portion of the latter has been re-arranged. A large number of the old cases which took up much space have been remodelled and the space thus economized has been filled with new cases.

32. The manufacture of turpentine and colophony on behalf of the Jaunsar Division was continued under the superintendence of the Curator, the outturn being 2,963 gallons turpentine and 1,268 maunds colophony.

33. The gardens and grounds were maintained in good order and further thinnings were carried out in the school park.

34. The revenue and expenditure account was as follows :—

	Revenue.	Expenditure.	Add share of General Expenditure.	Total Expenditure.	Surplus or deficit.
	₹	₹	₹	₹	₹
(*a*) School Garden and flowers	200	652	310	962	−762

(*c*) Park	73	227	206	433	−360
(*d*) Hospital and Workshop compound	...	5	51	56	−56
(*e*) Nursery and sale of young trees	22	17	155	172	−150
(*f*) Kaunli Garden	79	94	52	146	−67
TOTAL	961	1,221	1,032	2,253	−1,292
TOTAL, 1900-1901	1,109	1,259	1,032	2,291	−1,182
	−148	−38	...	−38	+110

The decrease in revenue was chiefly due to fewer flowers and plants having been sol during the year.

35. The following shows the revenue and expenditure of the year (1st July to 30th Jun 1902) compared with that of the previous year : —

	1901-1902.		1900-1901.	
		₹		₹
Revenue		2,935		3,656
Expenditure—				
A.—Conservancy and Works . . .	3,682		4,267	
B.—Establishments	69,925		68,292	
		73,607		72,559
		70,672		68,903

36. The Director's acknowledgments are due to the Deputy Director, Instructors and Lecturers for the good results of the year. Mr. Gleadow who left the School in December to take charge of the Sind Circle has with short intervals of leave held the post of Deputy Director for nearly six years, during which time he has done much to advance the efficiency of the School and promote the welfare of the students. The Director wishes also to express his thanks to Major Gordon and Mr. Duthie for their assistance at the annual examinations as well as the Divisional Officers of the School Circle for organizing the School tours and much other help. Babu Puran Singh Kandari, Head Clerk, and the office staff continued to work well, but office work has been greatly hampered by the severe illness of the Head Clerk.

J. W. OLIVER,
Director, Imperial Forest School.

Rai Sahib Upendra Nath Kanjilal, Extra-Assistant Conservator, was awarded Rs. 30 for an article on the Jubal forests.

Resolution No. II.

The Board carefully considered a proposal to abolish the Vernacular Class from April 1905. From available statistics the average annual expenditure entailed by the Vernacular Class appeared to be nearly Rs. 6,000, and the average number of certificates awarded during the last 5 years was seven It was pointed out that owing to the higher standard of education now prevailing and the increased numbers of English-speaking natives in the various provinces,

the Vernacular Class was now no longer necessary. It was further explained that should the Vernacular Class be abolished, the School quarters occupied by it would shortly be rendered available for the Bombay students, who are now for the first time to receive their technical instruction at the School, and that in this case additional expenditure on building new quarters would be avoided.

The Board resolved that the maintenance of the Vernacular Class was now no longer necessary and recommended that, with the sanction of the Government of India, it be abolished on the understanding that, as a tentative measure, in order to obviate any temporary inconvenience that might be caused by the change, the percentage of gross marks for the Ranger's certificate should be raised, and a lower certificate instituted in the English Course. The pass marks would then stand: Honours certificate 75 per cent.; Ranger's certificate 60 per cent.; and new Deputy Ranger's certificate 45 per cent. of the total marks.

Resolution No. III.

In order to exercise a close control and supervision over the students at all hours, the Board considered a proposal that the Deputy Director be assigned an official residence in close proximity to the School, and resolved that the sanction of the Government of India be requested to the purchase of a suitable house or the acquisition of land on which a house should be erected, as near as possible to the School quarters, and that, should sanction be obtained, the Deputy Director should be bound to occupy this official residence on payment of the prescribed rent.

Resolution No. IV.

The Board resolved that the sanction of the Government of India should be requested to a revision of rules 27-A and 28 of the School Calendar as follows:—

27-A. *Substitute-Removal for incapacity.* Any first year student who after due warning received by or before the 10th September shall have failed at the end of the term, *i.e.*, by the 31st October, to obtain one-half of the aggregate marks assigned for the monthly examination, may be removed from the School, either as not possessing a sufficient knowledge of English, or as not being sufficiently diligent or promising to profit by the School course."

28 (i). *For* "teacher" *read* "instructor."

28 (4). *For* ", convened by the Director," in the first line *read* "of the "quorum as defined below."; also *omit* the words beginning "of not less" in the first line, to "Director" in the 3rd line.

28 (5). *For* the first line "The Director.....to under (3)," *read* "The quorum as defined below"

28 (6). In the first line after "Director" *omit* the words "acting..... School."

Add a clause to rule 28 as follows:—

"(7) The removal of a student under the terms of rule 27-A, and the reprimand, fining or dismissal of a student under rule 28 (4), (5) and (6) shall not take place without the consent of a quorum consisting of the Director, the Deputy Director and one Instructor to be nominated by the Director."

Resolution V.

The Board considered a proposal to give riding lessons at the School and resolved that, as the time of the students is already fully occupied it was not prepared to make any recommendation.

Resolution No. VI.

The Board were of opinion that the instruction in Physical Science sh
be based on its practical application to Forest Economics and that a revi
syllabus should be drawn up, presenting in fuller detail the subjects of
lectures. It also considered that, owing to the inability of many of the stude
to fully profit by the lectures given, it is essential that a system of dictating
main points of the lectures should be introduced, and recommended that
Government of India be requested to issue such orders as may be necessary
ensure the changes in the course of lectures.

Resolution No. VII.

The Board resolved that the Inspector-General of Forests be requested
lay before the Government of India the practical results of article No. 31 (I) (a
(portion in brackets) of the Forest Department Code, introduced in July 190
which permits the direct appointment of students holding the Honours Certificat
to the IV grade of Rangers. It was of opinion that although it is desirable to encour
age ability and diligence at the Forest School, the reward offered, which in practice
consists in giving about 6 years seniority to picked men, is out of proportion to
the superiority of these men over their contemporaries, amongst whom also grave
discontent is caused. The Board therefore suggested for the sanction of the
Government of India that this portion of the above article be cancelled from
June 1904, that an honorarium be granted to students obtaining the "Honours
Certificate" and that their future career be made dependent, not as at present on
the readiness with which they assimilate the School training, but rather on the
practical application of that training as Forest officers.

8. The Brandis prize. M. Rama Rao, Extra-Assistant Conservator of Forests, Madras, was awarded Rs. 100 for his article on root parasitism on the Sandal tree.

Resolution No. II.

The Board resolved that the sanction of the Government of India should be requested to a revision of rule 6 of the School Calendar as follows:—

In line 6 of rule 6 *for* "one-fourth" *read* "one-third", and in line 9 *for* "three-fourths" *read* "two-thirds."

Resolution No. III.

The Board considered a proposal of the Inspector-General of Forests, that the maximum number of marks allotted to each subject taught (rule 4) should be fixed and that these marks be in proportion to the importance of the subject; and it was resolved that the Director and the School staff be asked to submit proposals to this end to the Board of Control, such proposals being in detail showing the maximum number of marks to be given for each subject and the proportion in which such maxima should be subdivided and distributed over the—

(*a*) Monthly examinations,

(*b*) Written examinations (final),

(*c*) Oral examinations (final),

and that these marks and manner of distribution when thus fixed by the Board may not be altered without its approval.

Resolution No. IV.

The Board resolved that the sanction of the Government of India should be asked to the following addition to rule 4 of the School Calendar:—

"Besides the above a maximum of——*marks will be allotted at the final examination, for energy displayed in attaining physical efficiency during the School course."

* This number will depend on the Board's decision on the proposals in Resolution No. III.
